BLACK TEA.
Warranted to suit all tastes.
SEASON OF 1870-71
Mason & Hamlin

Important Improvements.
Patented June 21st and Aug 23rd 1870.

Reduction of Prices
The Mason & Hamlin Organ Co., have the pleasure of announcing important improvements in their Cabinet Organ, for which patents were granted them in June and August last. These are not merely superficial attachments, but enhance the substantial excellence of the instrument.

They are also enabled by increased facilities for manufacture, to make, from this, a further reduction of price on several leading styles.

Having completed and added to their former facilities a large new manufactory, they hope to be able to supply orders promptly.

The Cabinet Organ made by this company are of such universal reputation, not only throughout America, but also in Europe, that few will need assurance of their superiority.

They now offer Four Cabinet Organ, in the following styles, but not limited to them, at a capacity to anything they make, for \$250 each.

1. Tremolo, Double Reed, \$60. Five Octave Double Reed Organ, Five Stops, with Knee swell and Tremolo, in elegant case, with several of the Mason & Hamlin Improvements, \$125. The same Extra, with new Vox Humana, Antiphonal, etc., \$160. Five Octaves, Three Stops Reed, Seven Stops with Vox Humana, a splendid instrument, \$225.

A new Illustrated Catalogue, with full information, and reduced prices, is now ready, and will be sent free, with a testimonial circular, presenting a great mass of evidence as to the superiority of these instruments, to any one sending his name to the MASON & HAMLIN ORGAN CO., 106 Tremont St., Boston, or 596 Broadway, New York.

FOR SALE.
One hundred and forty acres of land belonging to the estate of Benjamin Jones, late of Cornwall, deceased, upon which are two good barns with sheds. The land is nearly all the best of new land and situated on Lemon Fall in Cornwall, Vt.

CHAS. D. LANE, Adm'r.
Cornwall, Sept. 12, 1870.

Poetry.

Little Herbert.

In the mansion above,
Children are gathered so fair,
So fair in their white flowing robes,
With lilies in their brown golden hair.

And their happy voices
Are raised in holy song,
With their faces beaming brightly,
As hand in hand they march along.

Beautiful angel band,
Away from pain and care,
Are loved one dwelling in heaven,
And we know little Herbert is there.

Summer days will come again,
Roses will bloom by the door,
How you'll miss your little one then,
When he comes to you never more.

But you can go to him
To the beautiful world above,
We'll know each other in heaven,
And love with a heavenly love.

Leicester, Sept. 20, 1870. E. M. C.

Obituary—Fatal Accident to Daniel W. Tomlinson, of Batavia.

The sad news was received in this city, Tuesday, of the death of Daniel W. Tomlinson, of Batavia, which occurred at nine o'clock Wednesday evening, the result of an accident which befell him about two o'clock in the afternoon of the same day.

We have not very full particulars of the casualty which has caused an entire community to mourn. It seems that Mr. Tomlinson, at the hour indicated, was on a platform—left on the rear of a bank building—and was coming down, when he mistook his footing, and fell down a considerable distance, striking the back of his head against a pile of lumber, and fracturing the skull at the base of the brain.

He was at once rendered unconscious, and was taken to his residence, where he lingered until nine o'clock, when death ended his sufferings.

It is fitting that a more extended obituary than usual should be written of one so generally and favorably known throughout Western New York.

The deceased was born in Vergennes, Vt., on the 22d day of February, 1815. His father, Abel Tomlinson, quite a prominent man in his neighborhood, removed to Middlebury in the same county, shortly after the birth of the subject of this sketch, and there the childhood of Daniel was passed.

He was the only son of a large family of children, and his father was a man of considerable standing in the community. At an early age, he began to provide for himself, taking a clerkship in a village store. His mind was quick and his disposition ambitious, so that this limited sphere and a condition of semi-dependence upon his father did not long satisfy him.

At the age of eighteen he set out for Mobile, Alabama, to begin life for himself. He arrived in that city with some money, and he remained there, and the self-reliant spirit caused him to try to obtain employment without presenting any of his introductory letters, but failing in his efforts, he availed himself of one of them, and soon obtained a subordinate position with a firm of cotton-brokers. In this capacity he evinced an extraordinary aptitude for business, and in four years time was promoted to the place of chief and confidential clerk. In 1837, his employers became involved in pecuniary difficulties, and the matter took a shape which resulted in the business passing into the hands of young Tomlinson. During his connection with the house he had earned the confidence and good-will of all his patrons, and he managed the business with such energy and shrewdness that, in the course of a few years, he had amassed a handsome fortune.

In 1844 he returned to the north, married and settled in the place at Middlebury, for a time residing there, when he removed and established himself in Geneva county, New York, purchasing a fine farm and mansion near Alexander. Subsequently he resided in the village of Alexander, where he established the Exchange Bank of Geneva.

Removed to Batavia, changing the location of his bank to that village, where he resided until his death. In 1857 he closed up the affairs of his bank, being tired of active business, and his private fortune having become so large as to demand a great deal of attention; and since that period he has led the life of a quiet, substantial citizen. He took great interest in several of the roads of this part of the state.

Every community in which the deceased ever resided, and especially that which was his home during the later years of his life, can bear testimony to his worth as a citizen. Batavia is indebted to him for a large share of her improvements. His attachment to his home was strong, and his advancement and embellishment of it were his chief objects.

In politics, Mr. Tomlinson was an old-line whig, and afterwards attached himself to the Democratic party. His feelings were earnest on these subjects, though he was never ambitious as a politician.

His character was of the genuine American type—one which could not fail to command success. He was thoroughly self-reliant in all his enterprises, and shrewd in business. Though careful and rarely making mistaken ventures, he did not hesitate to risk his capital where his good sense indicated a fair return. Without, through every complication of his extensive business transactions and in every relation of life, he bore himself as a high-toned gentleman, of the strictest probity and loftiest honor.

Those who knew him best say that no man can point to an instance in which he was wronged by Daniel W. Tomlinson. No fairer epitaph than this could be inscribed upon his tombstone.

The deceased had been, for many years, a member of the Episcopal church, and was a true Christian. He leaves behind, to mourn his untimely death, for he was in the prime of life when stricken down, a widow and five children, one son and four daughters. But while these will sorrow deeply, the whole community in which he resided, and a very large circle of friends beyond, will join in deep regret at the decease of Daniel W. Tomlinson.—*Buffalo Courier*

Shanks is again running for the Congressional purse. It will be a mere chance if he gets it.

"I say," said a Yankee to an Irishman who was digging in the garden, "are you digging out a hole in that onion bed?" "No," said Pat, "I'm digging out the dirt and leaving the hole."

There is a very pretty story told of a man who was digging in the garden, and found a hole in the ground. He was digging out a hole in that onion bed."

"No," said Pat, "I'm digging out the dirt and leaving the hole."

The Cave of Bellamar, in Cuba.

Whatever advantage, as to extent, other caves may possess over Bellamar, surely none in the world can surpass its wonderful wealth of rare and exquisitely beautiful crystallizations. Nature seems to have exhausted her fancy in producing these myriads of quaint forms and curious combinations. The stalactites are singularly capricious and beautiful. From the gigantic "Mantle of Columbus" to the newly formed delicate tubes and cones, scarcely an inch in length, there exists every intermediate variety of size. Some are flat and transparent, and will vibrate when struck, with a sound as clear and melodious as a silver bell. Others are tubelike, hollow, twisted or curved, sometimes branching like coral, others hanging like coral, or darting sharply upward. According to the accidents of their position, they assume at times entirely different forms. Now they are frozen dribbles along the yellow surface of the rock; again they have worked into grotesque fringes, or are sculptured into delicate frills; now they are glittering serpents, flashing white in the torchlight, and again they are coated as if with a heavy frost, and again the shapes take the form of crabs, of cornucopias, or of flowers tinged with delicate colors and resembling dahlias and roses.

In the complex web which they form it is difficult at times to separate the stalactites from the stalagmites. The latter form, in some places, rich curtains of the whitest and most minutely patterned lace; they hang like the rich drapery of cornucopias, or of flowers tinged with delicate colors and resembling dahlias and roses.
